

Information Sheet

Pocket Toner® NX2 Satellite Installer Kit

The perfect NX2 kit for satellite installers!

What's In the Kit:

- | | |
|-------------------------|---------------------------------------|
| Pocket Toner® NX2 | F-female coupler (<i>Speed 81™</i>) |
| Dial Tone Detective™ | F-male push-on adapter |
| Alligator clips adapter | AAA battery |
| F-female coupler (F-81) | Compact canvas belt case |
| F-male coupler (F-71) | |

Testing for continuity, shorts, 50-75 Ω termination, and polarity has never been easier! PTNX2 also now tests for the presence of both AC and DC voltages from 6v-48v.

For the first time satellite installers can test for receiver voltage to confirm there is voltage present to power the devices at the dish! Another exciting exclusive Pocket Toner® NX series feature that satellite installers will find indispensable is voltage protection in both the main unit and the detachable toner unit. Now you not only use NX2 to test for the presence of AC/DC voltages, but you need not worry about destroying your Pocket Toner® by exposing it to voltages 6v-48v. Additionally, the small and effective Dial Tone Detective™ (DTD) can instantly indicate the presence of dial tone and proper polarity at a voice jack.

FEATURES

- Low-voltage circuit protection (6v -48v) in main unit & toner unit
- Patented Gale Corporation adapters to test any wire or cable
- 8-Segment LED displays 5 different test results
- Audible indicators in both Main Unit & detachable Toner Unit
- Main Unit “beeps” when line condition changes
- Bi-gender Toner Unit w/removable *Speed 81™* coupler
- Removable push-on F-type connector
- Nickel-plated brass connection fittings
- Lightweight and durable, anodized aluminum construction
- Push-button power switch w/dust seal
- Auto shut-off feature extends battery life
- Key high-wear parts are replaceable
- Uses 1 standard AAA battery
- One-year limited warranty

Test Result Display		Blinking [-] indicates an open circuit
		Blinking [5] indicates a short
		Solid [0] indicates continuity with either a 50-75 ohm ID cap or the toner unit
		Blinking [4] indicates AC voltage (>6 volts)
		Solid [4] indicates DC voltage (>6 volts)

Part #: PTNX2-SAT
Price: \$59.95
