## Pocket Toner® NX8 Security/Fire Pro Kit

*Simply the best tool to identify and test multiple wire pairs for continuity and voltage*

### What's In the Kit:

- |                        |                                       |
|------------------------|---------------------------------------|
| Pocket Toner® NX8      | Alligator clips adapter               |
| 8 ID caps              | F-female coupler (F-81)               |
| 66 block adapter       | F-male coupler (F-71)                 |
| RJ-11 adapter          | F-female coupler ( <i>Speed 81™</i> ) |
| RJ-45 adapter          | F-male push-on adapter                |
| Dial Tone Detective™   | AAA battery                           |
| 8 2-wire clip adapters | Deluxe case with belt clip            |

This kit includes all the adapters needed to test security and fire networks. The eight patented 2-wire clip adapters snap easily onto any two conductor 26-16 gauge wire for simplicity of testing. Confirming dial tone is important and possible with Gale Corporation's exciting new Dial Tone Detective™ which is included in each Security and Fire kit.

PTNX8 is the best tone and tag tool for testing continuity, shorts, 50-75 Ω termination, and polarity—on eight cables at once! Simply place each of the numbered ID caps on the remote ends of the cables to test then connect the main unit to the other end of the test cables one at a time. If there is continuity, the green LED on the ID cap will light and the main unit will show the ID cap's number (1-8) on its digital display. In addition, the audible indicator in the main unit will emit a short tone. PTNX8 also tests for the presence of both AC and DC voltages from 6v-48v.

### FEATURES

- Low-voltage circuit protection (6v -48v) in main unit, toner unit & ID caps
- Patented Gale Corporation adapters to test any wire or cable
- 8-Segment LED displays 5 different test results
- Audible indicators in both Main Unit & detachable Toner Unit
- LED indicators on all ID caps indicate continuity
- Main Unit "beeps" when line condition changes
- Test up to 8 cables at once
- Bi-gender Toner Unit w/removable *Speed 81™* coupler
- Removable push-on F-type connector
- Nickel-plated brass connection fittings
- Lightweight and durable, anodized aluminum construction
- Push-button power switch w/dust seal
- Auto shut-off feature extends battery life
- Key high-wear parts are replaceable
- Uses 1 standard AAA battery
- One-year limited warranty

Test Result Display	
	Blinking [-] indicates an open circuit
	Blinking [S] indicates a short
	Solid [C] indicates continuity with either a 50-75 ohm ID cap or the toner unit
	A solid matching number indicates continuity with one of the 8 ID caps
	Blinking [V] indicates AC voltage (>6 volts)
	Solid [V] indicates DC voltage (>6 volts)

Part #: PTNX8-SF-PRO  
Price: \$140.49
